Dear Communication Majors,

We have more great summer internship opportunities for you this month! Additionally, there are two other internship programs that we would like to make you aware of.

First, Dr. Donald Greco in political science runs the Illinois in Washington program. This program is a U of I sponsored academic internship program that is held in Washington, D.C. Whether you are interested in our political process, in business and economics, the myriad of ways in which government affects your life, or if you are just curious about what goes on in Washington, D.C. the IIW program has something for you. No matter what your current interests are or future plans may be, you should consider interning and studying in our nation’s capital for a summer or a semester. Please note the deadline for the Fall 2013 session is March 1st. The application process is quick and easy. Check it out at http://www.washington.illinois.edu/.

Second, the Career Center is starting a new program called UIntern, which is a great opportunity for those students who have never had an internship before. UIntern pairs you with a local organization for your internship. Their mission is to prepare students for meaningful and impactful careers through internships with local organizations that will enhance existing efforts in the Champaign-Urbana community. In addition to the internship, the UIntern program provides workshops, seminars, and more to enhance the students’ understanding of non-profit management and community engagement. Any questions can be directed to UIntern@gmail.com.
